

The Inline Wolverine™

Residential and Small Commercial Building Passive/Low Flow Vent Air Scrubber

Superior Odor Control, Superior Quality,
Exceptional Price

Inline Wolverine™

The Inline Wolverine™ - Is a powerful septic and sewer vent Biofilter that Installs in the attic, "inline" of the existing roof vent pipe. The Inline Wolverine™ is primarily designed for use in extreme cold climates and comes complete with an insulated blanket to prevent frosting. However, It can be installed in any climate where septic or sewer vent odor exists and the roof vent filter needs to be hidden, such as may be the case of some Homeowner Association rules.

The Inline Wolverine™ is also a popular filter for use in marine holding tank vent applications.

- Utilizes our "Perforated Disc Carbon Containment System" Pat. Pend.
- Comes standard with Sulfursorb Catalytic Activated Carbon.
- Accepts our Unique Saturation Indicator.
- 1 Year Warranty and a 120 Day Money Back Gaurantee.
- For use on low flow and Passive vent systems

1.5" Model: Only **\$49.95**
