Super Wolverine™

The Super Wolverine™ is the perfect choice for eliminating your commercial building, light industrial, and municipal low flow vent odor problems. The Super Wolverine™ holds 10 lbs of Sulfursorb Catalytic Activated carbon. It installs in minutes with no tools required, making it the perfect professional solution for eliminating annoying Hydrogen Sulfide vent odors originating from low flow vents. The Super Wolverine™ is available for vent pipes ranging from 3-6 inches. All you need to do is measure, order and install.

- **Utilizes our "Perforated Disc Carbon Containment System"**
Pat. Pend.
- **Unique Cross Flow Design** Pat. Pend. **dilutes H2S concentration for longer carbon bed life.**
- **Comes standard with Sulfursorb Catalytic Activated Carbon.**
- **Accepts our Unique Saturation Indicator.**
- **Drain plug for easy carbon bed change out.**
- **1 Year Warranty and a 120 Day Money Back Guarantee**
- **Treats air flows Up to 10 CFM.**

The Super Wolverine is also available with a 50CFM solar fan for active ventilation of your system.

Competitors filters containing the same quantity of Carbon cost upwards of \$700! The Super Wolverine™ for vent pipes ranging from 3 to 6 inches:
